To whom it may concern

'Active Preston – Transforming Community Infrastructure (Levelling Up Fund)'

I write to provide our support for the Levelling Up Fund (LUF) bid that Preston City Council are submitting to Government.

We are aware that Preston's LUF bid prioritises investment to regenerate, restore and renew four major City parks (Ashton, Moor, Waverley and Grange), as well as delivering new and improved active travel infrastructure to support a healthy, liveable and sustainably connected city.

The Fishwick and St Matthews (FAM) Big Local Partnership is pleased that the bid includes a proposal to renew and improve Waverley Park by delivering a range of sports, visitor / community facilities and access improvements. We therefore support, in principle, contributing £150,000 toward the Waverley Park project in the event that the Council is successful with its LUF funding bid.

Yours faithfully

Peter Dilworth
Chair
